He attacke the Soviet version of events in Hungary of last October as "the truth upside down." He defied Soviet contentions that the troops were called in by Hungarian authorities to restore order.

Lodge listed eight counts on which he said Kadar's Soviet supported regime broke its promises to the Hungarian people. These included failure to btain withdrawal of Soviet roops, abandonment of promises not to conduct reprisals against freedom fighters, and ialiure to establish a multiparty political system.

Lodge asserted that the Kadar' regime reneged on promises to hold free elections, uphold the right to strike, put an end to Soviet plunder of Hungarian resources, and respect freedom of religion and the press.

News Reports Are Olted

We have a news report that all 300 workers in a factory in Miskolc, one of the strongin Miskolc, one of the strong-holds of the revolution, were sent to Russia for a "study visit" and have not been heard from since. We have reports of new networks of informers being created in factories and villages by blackmail threats against people who took part in the uprising.

Diackmail threats against people who took part in the breaking of this promise, the United States delegation has submitted, for circulation as a General Assembly document, a list of 1,768 individuals, each identified by name, against whom the Hungarian authorities have taken punitive action between November, 1956, and August, 1957, for alleged anti-regime activities during and after the October revolution.

This list'ls drawn entirely from Hungarian Communist sources, namely Hungarian newspapers and Hungarian Communist radio broadcasts during the period in question. This is the nearest thing the

The report which it is my duty to present to the Assembly has long since been circulated to the members of the United Nations.

The committee has, as instructed by the Assembly, directed its attention to the situation created by the intervention of the armed forces of the U. S. S. R. on 24th October last. That they did intervene is, of course, questioned by no one. We have made it clear that the main concern of our report is in mo way the internal affairs of the Hungarian people.

The committee was composed of members drawn from countries in each of the continents of the world. Imputations which have been made that the committee took instructions from any source whatsoever are an insult to men who approached their task with an attitude sincerely judicial and fairminged.

When the committee first met, no consensus of opinion

The Hungarian Government rightly considers that the pro-cedures of the Special Com-mittee are unworthy of the United Nations.

The Hungarian Government considers it necessary:

That the General Assembly should condemn the report of the Special Committee as intervention in the domestic affairs of Hungary, as slanded and as incitement to war, and that the General Assembly should condemn the imperial sist forces which for year have been carrying out subversive activities against the institutions of the Hungaria.
